Lucrana Simmentals

www.lucrانا.com.au

Lucrana History

The stud was registered in 1986 by John Moore. The family having used Simmentals in the commercial herd for a number of years. Being impressed by the extra growth and muscling of Simmental cross progeny, as well as the maternal ability of the Simmental blood females, it was decided to purchase some stud females. A diverse group of foundation females was put together over the next few years. Today the breeding herd is run under what could be considered as tough commercial conditions.

Numerous natural service and A.I sires from the breeds leading bloodlines and herds have been added over the years.

In the early days of the stud the calves that were retained as bulls were destined for the Moore family's commercial crossbred breeding herd. As numbers grew, bulls were sold both privately and at various multivendor sales, in Toowoomba, Rockhampton, Wandoan, Casino, and Roma.

By 2012 the herd was of sufficient size to sustain our own annual sale, and the decision was made to hold our First On Property Sale.

Welcome to Lucrana Simmentals 6th On Property Sale

With our sale here for another year, it is pleasing to reflect on the cattle market of the past 12 months, with prices remaining solid. The additional weight of the Simmental cross when combined with a strong market have resulted in some very satisfying returns achieved for our clients.

It is these solid commercial returns that are the driver for the resurgence in the Simmental breed. With this in mind we have embarked on a Black Simmental breeding program to be run alongside our Traditional herd, and are enjoying the challenges of producing a 'Lucrana style' animal wrapped in a black coat. The first progeny from this program are offered at this year's sale.

Our polled breeding program continues to gain momentum, with around 80% of this year's bull offering being polled or scurred. We firmly believe that we have not suffered any decline in productivity or loss of eye appeal as the incidence of the poll gene increases in our herd. We consider the Lucrana Hunter(P) progeny in this year's catalogue as proof that you can have Polled and Performance in the one package.

*We look forward to seeing you on sale day,
and wish you every success with your purchases.*

Andrew & Karen

Please bring this catalogue to the sale

OTHER INFORMATION

DIRECTIONS: Poppun is located on Riverton Rd, 35km SE of Texas and 100kms West of Tenterfield. See Map inside front cover.

INSPECTIONS: Inspection from 9am Sale Day or by prior arrangement.

AGENTS REBATE: 2% outside agents rebate is offered to agents introducing buyers 24hrs prior to the sale and settling on their behalf within 7 days.

PHONE BIDDING: The selling complex is located in a reliable NextG mobile coverage area. Contact the selling agents if you wish to place a phone bid.

DELIVERY: Where possible Lucrana Simmentals offer delivery at no cost to major saleyards which are on delivery routes for other Lucrana Sale Lots within QLD and Northern NSW (as far south as Tamworth & Gunnedah). This service is to be negotiated between Lucrana Simmentals and the successful purchaser and is only provided at the convenience of the vendors.

OWN TRANSPORT FREIGHT REBATE: A rebate of \$150 will be deducted off the purchase price of any lot, where the purchaser takes delivery on sale day in their own transport or a carrier organised by themselves.

BULL PREPARATION: The bulls have been prepared for sale on a Rumevite Beef Pellet, with free access to oaten hay.

HANDLING: The bulls have been worked with bikes and dogs, and also exposed to horses.

CATERING: Barbecue lunch and refreshments provided.

REGISTRATION: The Lucrana breeding herd is a combination of Herd Book Registered and Simbeef Recorded (SPR) animals. The registration status is stated in the catalogue. Please consult the vendors.

TRANSFERS: Please indicate on the Buyers Instruction Slip, if an animal is required to be A.S.B.A transferred.

DISCLAIMER: All reasonable care has been taken by the vendor to ensure the information provided in the catalogue is correct. However the vendor and selling agents do not give any warrant as to errors or omissions. Prospective purchasers should satisfy themselves by inspection or otherwise as to the accuracy of the information included in the catalogue.

VET

All bulls have passed a Semen Test conducted by Adam Wise of Ced Wise AB Services Pty Ltd. Additionally they have been examined for scrotal size and breeding soundness. A Sperm Morphology evaluation has been undertaken, from a sample from each bull, by Sally North of Rocky Repro.

Morphology results, scrotal circumferences, weight and scan data, and pregnancy status of the females will be available in a supplementary catalogue on sale day.

HERD HEALTH

The area is a BJD(johnes) protected area and in a Cattle Tick Free area. Cattle are free to move interstate without any treatments.

Bulls

Vaccinations:

BEF (3 day) 19/01/17 & 28/03/17

3 Germ Blood 15/12/16

(Black Yearling Bulls have not been blooded - Lots 39, 40, 41, 42)

7 in 1, Pestigard, Vibrovax 09/05/17 & 07/06/17

Genesis Pour On 28/03/17

Tests:

Negative PI (pestivirus) Test

Heifers

Vaccinations:

7 in 1, Pestigard, Vibrovax 16/05/17 & 13/06/17

Drenches:

Genesis Pour On 07/04/17

Zoetis STAR is a quality assurance program for buyers. Buyers can be assured that the below steps have been taken to maintain productivity against preventable diseases that can effect fertility within a breeding herd.

Step 1 – checked that bulls & females are not Persistently Infected with Pestivirus

Step 2 - vaccinate with Pestigard®

Step 3 – vaccinate with Ultravac 7in1®

Step 4 – vaccinate with Vibrovax®

SIMMENTALS DOMINATE NZ TRIAL

A New Zealand Beef Progeny Test, now in its third year is being run by Beef + Lamb New Zealand (B+LNZ). It involves a number of different beef breeds joined to 2200 cows across five commercial farms New Zealand wide.

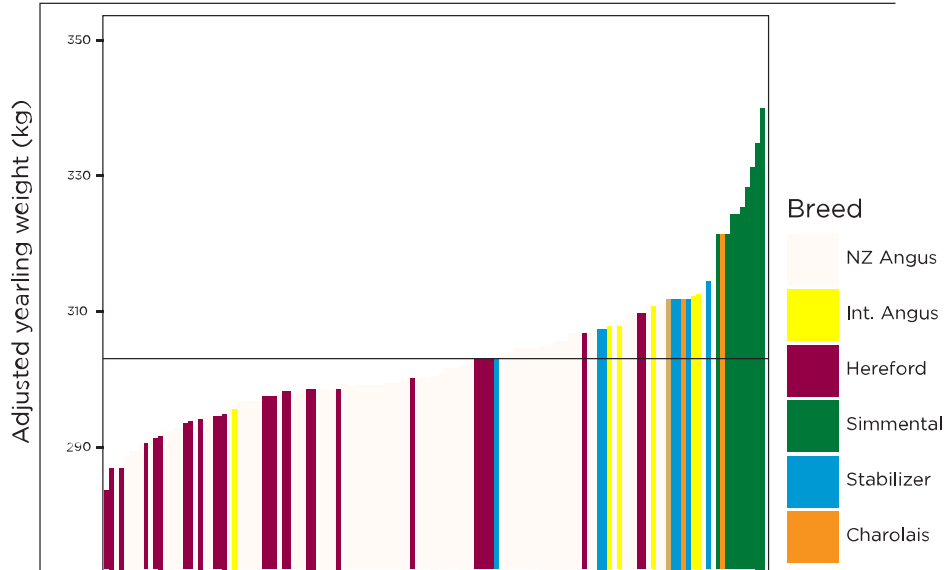

The 200 Day and 400 Day weights recorded in the trial have shown that on average the Simmental sired progeny have a significant weight advantage over all other breeds in the trial.

Price

4 BLACK YEARLING SIMMENTAL BULLS

The following Lots are the first Purebred Black Simmental bulls to be offered by Lucrana. They are the first progeny from our foundation females selected from the St Pauls herd.

We couldn't be happier with the way these young bulls are developing. Their maturity, growth, fertility data and carcass attributes are phenomenal for bulls of this age. We are also very impressed by their placid and docile nature. They represent a great opportunity to secure some of the leading Black Simmental genetics available in the world.
