Welcome to Lucrana Simmentals 9th Annual Sale

What a difference 12 months makes. Here at Lucrana it is a great relief not be handfeeding after the past couple of years. And also very exciting to see cattle prices pushing into record territory on the back of an improved season.

Through the ongoing drought of 2018 and 2019 our main focus was to maintain our stud breeders. Therefore faced with the prospect of a protracted and expensive feeding exercise ahead, the decision was made last year to only retain the very best of the 2018 drop bull calves. I believe this is reflected in the evenness and depth of quality of this year's draft. It does however mean that all our working age bulls have been catalogued for sale and there will no paddock bulls available for purchase later in the year. So sale day will be your only opportunity to secure a Lucrana bull until 2021.

Once again the line up is predominately polled and a feature this year is the first sons to be offered from a number of different sire lines. Of note are the progeny of Billa Park Maximum Impact(P) and Wormbete Lincoln(P).

The bulls have been prepared in the same manner as other years ie. with access to pellets and straw, albeit for a shorter timeframe this year as we were able to take advantage of the excellent pasture response which followed the late summer break. The bulls will present in strong working condition on sale day and are certainly not overdone.

I am sorry to say that due to the Covid-19 Regulations we will be unable to offer after sale refreshments this year, although lunch will still be provided. We also ask that only genuine buyers attend on sale day. For those that would like to arrange a pre-sale inspection or discuss a particular Lot or any aspect of the sale, please feel free to contact myself or one of the selling agents.
